BANGLADESH SEVERE WEATHER SITUATION UPDATE

Published on October 25, 2026 13:30 BST (+06:00 UTC)

Situation Overview (Depression)

- According to Regional Specialized Meteorological Centre (RSMC) (25 October 2026 13:30 BST), The **Depression** over Eastcentral and adjoining Southeast Bay of Bengal remained practically stationary, and lay centered at 09:00 hours BST of today, the 25th October, 2026 over the same region, near Latitude 15.3°N and Longitude 91.2°E.
- It is very likely to move nearly southwards, intensify into a Deep Depression and then gradually recurve west-northwestwards over the Eastcentral & adjoining Southeast Bay of Bengal today, the 25th October, 2026. About 880 km east-southeast of Vishakhapatnam (Andhra Pradesh), about 785 km south of Chattogram port.
- Continuing to move west-northwestwards, it is very likely to intensify further into a **cyclonic storm** over the Eastcentral & adjoining Westcentral Bay of Bengal by 26th October morning, and into a **severe cyclonic storm** over westcentral Bay of Bengal around morning of 27th October, 2026. Thereafter, it is very likely to move northwestwards, intensify further into a **very severe cyclonic storm** and reach Westcentral Bay of Bengal near Andhra Pradesh coast around morning of 28th October, 2026. It is very likely to cross Andhra Pradesh & Yanam coasts between Bapatla and Visakhapatnam as a very severe cyclonic storm with the maximum sustained wind speed of 115-125 kmph gusting to 140 kmph by forenoon of 28th October, 2026.
- According to Bangladesh Meteorological Department (BMD) (25 October 2026 09:30 BST), Maritime ports of Chattogram, Cox's Bazar, Mongla and Payra have been advised to keep hoisted distant cautionary **Signal Number One (R) One**.
- All fishing boats and trawlers over North Bay have been advised to come close to the coast and proceed with caution till further notice.
- The western and coastal regions of the country may experience moderate to heavy rainfall from 29 to 31 October 2026. However, the system has not yet developed into a cyclonic storm, and considerable uncertainty remains regarding its potential landfall location. Consequently, rainfall forecasts for Bangladesh may change. More location-specific rainfall forecasts will be available once the cyclonic system develops.

Important Note

This situation update is prepared to help humanitarian workers better interpret severe weather forecasts. The document is intended for specific groups only, NOT for public dissemination. **This is not a Warning Bulletin!** To access the Special Weather Bulletins of BMD, click here.
